

This is in regards to "NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve." Where i live some times its really hard to get a free radio station that gives me my local weather and Traffic reports, That is why i signed up for XM radio, Now im being told they are trying to band XM from broad casting this information. I don't feel its right. I Pay a membership for XP to hear my reports, Due to the other local staions that don't really come in good. I as please don't stop XM radio from broadcasting me this information....

Thank you for your Time
